the world is a mess the privileged few prosper the masses suffer and everyone feels spiritually empty most people would blame capitalism racism or some other ism but according to sharif m abdullah the problem is not ideology it s exclusivity our desire to stay separate from other people in creating a world that works for all ab

improve your relationships with others and help make the world a better place with this guide to changing your mindset to embrace inclusivity sharif abdullah writes we live in a world that works for only a few the problem he asserts is exclusivity the fundamental belief that we are separate from one another by practicing exclusivity we have created a soul starved society we suffer both personally and as a society from complex interlocking problems so intense that they create a deep sense of emptiness in all of us in creating a world that works for all abdullah shows how we can change our world by changing our consciousness we can actually put an end to these complex problems by embracing inclusivity the realization that all of our lives are inextricably linked with a practical blueprint for this positive approach to change he reveals how to turn from a mentality that disconnects us to one that embraces the goals of restoring balance to the earth and building community with all others abdullah shows how this transformation to inclusivity lies at the heart of all the world s spiritual traditions creating a world that works for all is a wonderfully rich collection of insights analyses and possibilities it provides stimulating guidance for those of us who want to live in a world that works for all margaret j wheatley author of leadership and the new science and coauthor of a simpler way a compelling and inspirational book that ignites creativity and a renewed commitment to re dream and mend a world that works for all no other book addresses our current situation in such a thorough and practical way angeles arrien phd cultural anthropologist and author of the four fold war and signs of life

this volume was first published by inter disciplinary press in 2015 the critical role of visual

literacies in the 21st century realm is widely acknowledged and the construction of the profile of the visual literate person as a responsible participant in the face of global challenged is a top listed goal in nowadays agenda

twenty five economists set out the challenges posed by a global economy

why are railroad tracks separated by the same four feet eight inches as ancient roman roads how did 19th century europeans turn mountains of bird excrement from peru into mountains of gold the answers to these tantalizing questions and dozens more will be revealed

thanks to modern technology we are now living in an age of multiplatform fictional worlds as television film the internet graphic novels toys and more facilitate the creation of diverse yet compact imaginary universes which are often recognisable as brands and exhibit well defined identities this volume situated at the cutting edge of media theory explores this phenomenon from both theoretical and practical perspectives uncovering how the construction of these worlds influences our own determination of values and meaning in contemporary society

this book is about championing a move away from simply evaluating physical assets to understanding and evaluating the intangible value of an entity it means moving beyond economic theory to reprioritise and change the organisation so that further value can be created via processes systems measures skills knowledge and strategy it is also about mapping the intangible value chain the book looks at value networks and using real life projects asks questions such as what do company value networks look like how are they used to create value how can one value the value chain what lessons can be learnt from companies with high value networks as opposed to companies with low value networks what is the impact on finance disciplines processes measures systems and skills these answers to these questions as provided by the case studies and interviews with cfos from the companies involved will help to improve focus improve shareholder value

margarita fajardo tells the story of the cepalinos latin american economists and policymakers and their dependentista critics whose ideas about economic growth and global inequality transformed our approach to development and changed the course of the twentieth century

william rowe is one of the leading thinkers in contemporary philosophy of religion although he is best known for his contributions to the problem of evil he has produced innovative and influential work across a wide array of subjects at the interface between philosophy and religion he has for example written extensively on the existentialist theologian paul tillich on the challenging problem of divine freedom and on the traditional arguments in support of the existence of god his work in these areas is distinguished by its clarity rigour originality and sensitivity towards the claims of his theistic opponents indeed rowe s work has played a pivotal role in the remarkable revival of analytic philosophy of religion since the 1970s the present collection brings together for the first time rowe s most significant contributions to the philosophy of religion this diverse but representative selection of rowe s writings will provide students professional scholars as well as general readers with stimulating and accessible discussions on such topics as the philosophical theology of paul tillich the problem of evil divine freedom arguments for the existence of god religious experience life after death and religious pluralism

world building represents the state of the discipline in worlds based approaches to discourse collected together for the first time over the last 40 years the text as world metaphor has become one of the most prevalent and productive means of describing the experiencing of producing and receiving discourse this has been the case in a range of disciplines including stylistics cognitive poetics narratology discourse analysis and literary theory the metaphor has enabled analysts to formulate a variety of frameworks for describing and examining the textual and conceptual mechanics involved in human

communication articulating these variously through such concepts as possible worlds text worlds and storyworlds each of these key approaches shares an understanding of discourse as a logically grounded cognitively and pragmatically complex phenomenon discourse in this sense is capable of producing highly immersive and emotionally affecting conceptual spaces in the minds of discourse participants the chapters examine how best to document and analyze this and this is an essential collection for stylisticians linguists and narrative theorists

from wondrous fairy lands to nightmarish hellscapes the elements that make fantasy worlds come alive also invite their exploration this first book length study of critically acclaimed novelist patricia a mckillip s lyrical other worlds analyzes her characters environments and legends and their interplay with genre expectations the author gives long overdue critical attention to mckillip s work and demonstrates how a broader understanding of world building enables a deeper appreciation of her fantasies

international relations theorist amstutz describes how values and perspectives from christianity can help advance a more humane global order after highlighting key features of the nation state and of global society he illustrates the role of christian values in international relations with case studies exploring three contemporary global problems migration development and climate change amstutz contends that a christian worldview focused on the dignity and rights of the individual as well as an emphasis on the common good can contribute to peace prosperity and justice in the international community the topic of global order is now more important than ever given that the rules based global order established at the end of world war ii is under great stress as witnessed in current wars in gaza and ukraine and the emergence of far right regimes in hungary turkey and perhaps even france despite significant improvement in living conditions worldwide the international community continues to face many global problems including failing states domestic and interstate violence persistent poverty growth in refugees mass migration climate change and global economic instability most importantly the contemporary

liberal order is facing major opposition from authoritarian states the contemporary challenge to the liberal order gives rise to urgent questions will the liberal global order be replaced by a more chaotic power based order is there a better way to organize the world than the existing un based nation state system how can the liberal international system be renewed can fragile states be strengthened what contribution can a christian perspective bring to the task of renewing global order amstutz argues that the advance of international justice and global order needs to be based on the nation state the basic building block of our contemporary international community most initiatives to improve the international community are rooted in political idealism or utopian thought and presume a shift from state sovereignty towards world governance this study by contrast assumes that any improvement in world order will necessarily depend on the ongoing role of the sovereign state in advancing global peace and prosperity three tasks are vital first strengthen weak fragile states second increase the number of constitutional democratic states and third strengthen international cooperation in addressing shared global problems christian values and perspectives amstutz claims can contribute to a better world by helping to structure the moral analysis of issues and by inspiring action that advances the common good

first published in 1999 in this study the author uses the annual latino festival as a framework for focusing the action and integrating many important informal and formal aspects of the washington d c latino community she demonstrates how the festival became a stage where relationships were defined networks established and identity enacted and provided my window into the history and development of the community for this study she was interested in an interpretative framework appropriate to festival which would reflect the multiple voices and points of view found within the community seeking the voices of leaders and community members in interviews and in spanish and english language newspapers

the earth is in crisis we know this we have known this for a long time in the throes of the unfolding nightmare we call capitalism it is not hard to see and hear the violence that is being enacted against the planet if we are to move beyond the idea that humanity is tasked with expressing our dominion over nature and towards a renewed integral understanding of humanity as firmly located within the biosphere as an anarchist political

ecology demands then we have to start interrogating the privileges hierarchies and human centric frames that guide our ways of knowing and being in the world this volume centers around the idea that anarchism as a conceptual framework encourages us to contend with the multiple lines of difference the various iterations of privilege and the manifold set of archies that undergird our understandings of the world and crucially our place within it

this is a reference for early modern philosophy representing the most contemporary research in the history of early modern philosophy it is organized by thinker rather than theme and covers every important philosopher and philosophical movement of 16th and 18th century europe

although many americans consider the establishment of the colonies as the birth of this country in fact early america already existed long before the arrival of the europeans from coast to coast native americans had created enduring cultures and the subsequent european invasion remade much of the existing land and culture in new worlds for all colin calloway explores the unique and vibrant new cultures that indians and europeans forged together in early america the journey toward this hybrid society kept europeans and indians lives tightly entwined living working worshipping traveling and trading together as well as fearing avoiding despising and killing one another in the west settlers lived in indian towns eating indian food in mohawk valley new york europeans tattooed their faces indians drank tea and a unique american identity emerged

the building of communities outside of the traditional brick and mortar base of a school or university is at a significant point in time virtual worlds bridge the gap between 2d web spaces online and 3d physical spaces of the classroom providing teachers and students alike with opportunities to connect and collaborate in ways that were previously unimaginable providing insight into this new age of teaching using virtual worlds in educational settings presents a collection of practical evidence based ideas that illustrate the capacity for immersive virtual worlds to be integrated successfully in higher
